THIS IS UNEVALUATED INFORMATION

1. The Main Administration for Pharmacy of the East German Ministry for Health has forwarded a plan for the administrative re-organization of certain parts of the East German pharmaceutical industry to the Council of Ministers, which will decide on it in its session of 15 October 1953. It is known already that, barring unforeseen circumstances, the Council of Ministers will approve the plan. According to the plan, all enterprises of the pharmaceutical industry now under local jurisdiction of the Bezirk Councils and all plants manufacturing bandages, those which are now under the central authority of a Ministry as well as those now under local Bezirk Council jurisdiction, are to be transferred to the authority of the Ministry for Health effective 1 January 1954. Thus, the number of enterprises under the authority of the Ministry for Health will be considerably larger in 1954 than before. 1/
